

Fandango! was a delight - musically, programmatically and personally. They are four top musicians who have a unique mission: Their unique programming for the duos, trios and quartets of their ensemble feature a wonderful mixture of classical transcriptions, commissions and Sephardic, Spanish and Balkan folk-inspired music.

Their musicianship is what I most appreciated. Apart from their fine, vibrant virtuosity, they are truly EXPRESSIVE musicians. This is especially true of Desiree and Eugenia, who blew me away with the passion and power of their music making. I told Eugenia afterward that singers who study and perform the major roles in Traviata would do well to listen to her to understand how to phrase, pace and feel the great arias.

Lovely people, top notch musicians, fresh and refreshing programming, and music making that fully communicates. Our audience of about 500 stood and cheered, requiring two encores.

Bravi! - I look forward to bringing them back in the future,

Paul Posnak
